

Welcome to the SCS & LAA e-newsletter. In this edition

- SCS Briefing and Prioritisation Event
- LAA2008/9

You need to know...

Following recent meetings of the CSP and LAA Boards, the scope of the new LAA has been agreed as focusing on the current LAA, with the addition of relatively few new outcomes already identified through the Issues Papers. This decision has enabled a review of the [timetable](#) of the development of the Sustainable Community Strategy.

We are therefore taking the opportunity to ensure the methodology is correct, particularly with reference to thematic strategies and to work more closely with partners to identify strategic priorities which effectively link the vision and the strategic issues.

The SCS will comprise of 3 sections:

- Evidence base
- Issues Papers
- Strategy (i.e. the strategic response to the issues Cornwall faces)

In order to clarify the 3 stages of the process, the SCS subgroup has suggested the Aims Papers return to being Issues Papers. The final [Issues Papers](#) are all available on the CSP website.

SCS events and milestones

SCS Briefing and prioritisation event on 21st February for Issue Papers leads and LAA outcome leads which will:

- Provide an update on the SCS development
- Identify gaps in the issues papers
- Test the methodology for identifying priorities.

Strategic prioritisation event on 29th February for CSP and LAA Boards to identify the strategic priorities to be included in the SCS (this meeting replaces the CSP meeting on 20th February).

Existing LAA

LAA 2008/9 is continuing to take shape, encompassing all appropriate outcomes from the existing LAA and a first batch of emerging outcomes coming through the SCS. Current work involves matching outcomes and priorities with the National Indicator Set in order to reach consensus on the 'up to 35' targets we agree with government, alongside the set of local indicators.
